SAN JOSE. SAN JOSE.
BERFORD & CO'S LINE
OF EXPRESS MAIL STAGES,
HALL & CRANDAL, PROPRIETORS,
Are now running every morning to San Jose, leaving Berford & Co's office in the plaza, at 8 o'clock, A. M., and the City Hotel in San Jose at 7 o'clock, A. M.

The reduced rate of fare puts it in the power of every one to visit the beautiful and healthful valley of Santa Clara. There is no more charming drive in California than that from San Francisco to San Jose, and as one is whirled rapidly through the oak openings and across the level plains under the skillful driving of Professors Dillon or Crandal, who drive their own coaches, he finds that pleasure is united with business, and wonders he has never made the trip before.

The great advantage this line possesses over all others, is that the Stages were bought expressly for the road, and with a particular attention to *safety*, while the drivers, who have served a long apprenticeship from New England to Mexico, make the *quickest* time and *never meet with accidents*, which are so likely to occur with the old fashioned stage coaches. We invite our friends to give the line a trial.

ITEMS FROM THE STATES.

Further Protection to Travellers on Steamboats.—The immense amount of property, and the great number of lives constantly exposed to destruction upon steam vessels, render it the imperative duty of Congress to provide for their protection. This will, we think, be amply effected by the passage of a bill now pending 'for the better security of the lives of passengers on boats or vessels propelled in whole or in part by steam.' This bill provides for the rigid inspection of the engine and hull of the steamer; requires hand steam-pumps, with sufficient hose, life-boats, life-preservers, and buckets; prohibits curtains of combustible materials; requires that the boilers shall be insulated by a 'continuous sheet of water at least two inches in thickness;' requires frequent tests of the capacity of the boilers. It provides that the engineer, captain, or owner who shall allow a greater pressure than that fixed by the inspector, shall be deemed guilty of manslaughter for any loss of life by accident, growing out of such excess of steam, and subjects the inspector to a fine of three hundred dollars, in case of a loss of life. It also fixes the same proportion between passengers and tonnage that has been heretofore established in merchant vessels. We have no doubt that the passage of this act will greatly promote the safety of the steam navigation, and give much greater confidence to the travelling public. [Wash. Globe.

Hon Daniel Webster has recently received a letter from 128 of his friends, residing in the place of his birth and the scenes of his earlier professional efforts, congratulating him upon the result of his efforts to adjust the exciting difficulties of the country. In his reply, Mr. Webster says:

'Some of you were my companions in the country schools; with others I have partaken in the sports of youth, the cheerful labors of the field of agriculture, and in the associations and exercises of early manhood. I see on the list learned and now aged and venerable clergymen, professional gentlemen and magistrates, of my own age, whom I have long honored and esteemed, and others of all classes and all pursuits in life. There are on the list, also, not a few who bear my name and partake my blood.'

The Committee on Public Buildings of the U.S. Senate, offer a premium of $500 for the best plan for the enlargement of the Capitol at Washington. It is required that the plans and estimates shall provide for the extension of the Capitol, either by additional wings, to be placed on the north and south of the building, or by the erection of a separate and distinct building, within the enclosure to be east of that building.

PRIME MERIDIAN.—The proposition made to the Secretary of the Navy and Congress, to change the prime meridian from Greenwich, England, to a point in the United States, has been reported upon adversely by the Baltimore Board of Trade. It seems to be regarded with disfavor, generally. [Ib.

And rightly, too, we think.

The Grinnell Expedition.—The English papers announce that a letter has been received at Aberdeen, from the mate of the whale ship Alexander, of Dundee, stating that the two American vessels, the Advance and Rescue, were west of Devil's Thumb, Greenland. They had advanced five hundred miles since last heard from. The letter is dated July 25th, in the neighborhood of Melville bay.

Whig Harmony.—Another root of bitterness has sprung up in the Whig party. A western paper, for which we have great respect, and which supports the side of the seceders notices the acceptance of the nomination by Washington Hunt in the *Evening Jonrnal*, and says—

'We have heard regret expressed that the announcement was not made in a paper friendly to the Whig National Administration.'

[Our Washington Correspondence.]
WASHINGTON CITY, }
Oct. 8, 1850. }

As the *News* has a wide circulation through the Pacific countries, I enclose a list of the routes established in Orogon and Utah Territories. Your Post Office agent will of course advise you how contracts shall be made in pursuance of the law.

In the appropriations made for the Army, you are thus remembered—

"For extra pay to the commissioned officers and enlisted men of the army of the United States serving in Oregon or California, three hundred and twenty-five thousand eight hundred and fifty-four dollars, on the following basis, to wit: that there shall be allowed to each commissioned officer as aforesaid, while serving as aforesaid, a per diem, in addition to their regular pay and allowance, of two dollars each, and to each enlisted man as aforesaid, whilst serving as aforesaid, a per diem, in addition to their present pay and allowance, equal to the pay of the enlisted men to be retained until honorably discharged. This additionnl pay to continue until the first of March, eighteen hundred and fifty-two, or until otherwise provided."

In the Civil and Diplomatic Bill it is enacted that—

"The Secretary of the Treasury be, and he is hereby authorized and directed to contract upon the most reasonable terms with the proprietors of some well established assaying works now in successful operation in California, upon satisfactory security, to be judged by the Secretary of the Treasury, who shall, under the supervision of the United States Assayer, to be appointed by the President, by and with the advice and consent of the Senate, perform such duties in assaying and fixing the value of gold in grain and lumps, and in forming the same into bars, as shall be prescribed by the Secretary of the Treasury; and that the said United States Assayer shall cause the stamp of the United States, indicating the degree of fineness and value, to be affixed to each bar or ingot of gold that may be issued from the establisment: Provided, That the United States shall not be held responsible for the loss of any gold deposited with said proprietors for assay: And provided further, That the salary of said assayer shall be fixed by the Secretary of the Treasury, not to exceed five thousand dollars."

TERRITORY OF OREGON.

"For salaries of Governor, three judges, and secretary, ten thousand five hundred dollars.

For salary of Superintendent of Indian Affairs, three Indian agents, and for office rent, wood and lights, stationery, and clerk hire, ten thousand dollars.

For contingent expenses of said Territory, one thousand five hundred dollars.

For compensation and mileage of members of the Legislative Assembly, officers, clerks, and contingent expenses of the assembly, twenty-four thousand dollars.

For taking the census in the Territory of Oregon, under the act of the fourteenth of August, one thousand five hundred dollars."

TERRITORY OF NEW MEXICO.

"For salaries of Governor and Superintendent of Indian Affairs, three judges, and secretary, nine thousand seven hundred dollars.

For contingent expenses of said Territory, one thousand dollars.

For compensation and mileage of members of the Legislative Assembly, clerks, officers, and contingent expenses of the assembly, twenty-four thousand dollars.

For Library for said Territory, five thousand dollars: *Provided*, That the library for the Territories of New Mexico and Utah shall be purchased by agents to be appointed by the President of the United States.

For public buildings for the Territory of New Mexico, twenty thousand dollars.

Provided, however, That no part of said appropriations for the Territory of New Mexico shall be expended until the State of Texas shall have agreed to the terms of the act of Congress entitled, 'An act proposing to the State of Texas the establishment of her northern and western boundaries, the relinquishment by the said State of all territories claimed by her exterior to said boundaries, and of all her claims upon the United States, and to establish a Territoriel Government for New Mexico.'"

"For the construction of a marine hopital to be located by the Secretary of the Treasury at or near San Francisco, in the State of California, fifty thousand dollars."

"For the erection of a new custom-house at San Francisco, to contain rooms for the post office in that city and the accommodation of its officer, and also rooms for the United States district court, the accommodation of its officers, and other Government officers in California, until the whole building is needed for custom-house purposes, one hundred thousand dollars: *Provided*, said building shall be exempt from all state, city, or other taxation: *And provided further*, That the whole cost of the same shall not exceed four hundred thousand dollars."

"For expenses in running and marking the boundary line between the United States and Mexico, marking the examinations contemplated by the sixth article of the treaty of Guadalupe Hidalgo, and paying the salaries of the officers of the commission, one hundred and thirty-five thousand dollars."

In the Navy Appropriation Bill, I notice the following provisions interesting to your readers. I would call their attention particulary to the socond proviso in the annexed extract. It abolishes absolutely and forever a revolting species of punishment in the naval and commercial marine.

"For transportation of the United States mail between New York and Liverpool, between New York and New Orleans, Havana, and Chagres, and between Panama and some point in the Territory of Oregon, eight hundred and seventy-four thousand six hundred dollars: *Provided*, That no payment shall be made for such service, except in proportion to the mail service heretofore performed, or that may be hereafter performed. And that the Secretary of the Navy is hereby directed to make payment in said proportion only: *Provided*, That flogging in the navy and on board vessels of commerce be and the same is hereby abolished from and after the passage of this act."

Provision has also been made for the construction of a Dry Dock at San Francisco, as follows:

For commencing the construction of a floating dry dock on the coast of California, one hundred thousand dollars. And the Secretary of the Navy is authorized to enter into a contract for the construction, with all reasonable dispatch, of a sectional or balance floating dry dock, basin and railway, at such harbor on the Pacific ocean as he may select, of a capacity and dimensions in no respect inferior to those of the dry dock in progress of construction at Pensacola: *Provided*, That, by granting the said contractors permission, if required, to prepare the materials chiefly at some harbor on the Atlantic seaboard, and advancing moneys thereon as the works progress, the said works can be completed at a sum not exceeding by more than twelve per cent. the total amount contracted to be paid for the floating dock, basin, and railway at the Pedsacola Navy Yard, with the addition thereto of what would be the cost of transportation to said coast of the said materials thus prepared, and with the reservation till the works are done of ten per cent. and the usual surety for the faithful performance of the contract; and the Secretary of the Navy shall also be authorized to enter into an agreement with the contractors, if they will keep the said works in repair and take proper care of the same for any given period of years, free of charge to the Government, to permit them to use the said works during such period on their own account for repairing merchant vessels, when not occupied by vessels of the navy, to which precedence shall at all times be given, on such terms as he shall deem reasonable.

In the Indian Appropriation bill is the following:

"To enable the President to hold treaties with the various Indian tribes in the State of California, twenty-five thousand dollars."

I also enclose a copy of a bill, the provisions of which will be available to many of your citizens who have borne arms in the late war with Mexico, or in any of the wars against foreigners or Indians since the revolution. [We will give the bill on Monday.]

There was a long debate on the subject of establishing ports of entry in California. Some were for Benicia and San Francisco only, and the discussion finally closed by creating six collection Districts, as follows:

San Francisco, Sonoma, San Joaquin, Sacramento, San Diego and Monterey.

It is very much to be regretted that

555

an unfriendly rencontre grew out of the California discussion in the Senate, between Mr. Foote, of Mi., and Col. Fremont. Mr. Foote made an allusion, in the course of a speech of his, which was considered by Col. Fremont as insulting, and soon after accosting Mr. Foote, whom he met outside the bar, admonished him that such remarks were highly offensive. An altercation ensued, during which a blow is said to have been attempted. At this stage of the affair, a senator or two interfered. There was considerable anxious speculation about town as to the issue, for the parties were rated as mutually jealous of honor. The next day, however, a card was published, announcing that the affair had been amicably adjusted. In the Baltimore Sun of the 5th inst., a communication appeared, which shows that the end is not yet.

Democracy looks cheerful in the Empire State. This is comforting; for the politicians feel pretty easy, generally, when New York is right. The late conciliation may be depended on, and no doubt the Administration at Washington, for the four years commencing March 4, 1854, will be Democratic. As for the *Whigs* in New York, they have declared war amongst themselves. The Seward and Fillmore divisions have solemnly repudiated one another. At the late State Convention held by that party, Hon. Francis Granger was put in the chair, and the assembly, after organization, proceeded to nominate the Governor and other State officers. Up to this time things went pretty smoothly, but, when they came to vote on *Resolutions*, "the camphine exploded, wounding several very dangerously." The Seward men proposed an endorsement of the "higher law" doctrine, and wanted to canonize its great promulgator. The quarrel, *pro* and *con.*, either alarmed or gusted the chairman, who "cleared the coop" and carried away with him a large retinue. A call signed by Mr. Granger and about forty others has since been issued, proclaiming a new Whig Convention to be held at Utica on the 17th inst., and recommending primary meetings in every county, for the election of delegates. The address is said to be written by the Hon. M. Duer.

The State election in Maryland was held on the 2d inst. It has resulted in the triumph of the Democracy, by about 1500 majority. Verily, the universal incontinent Whig party is in a quandary!

In Washington, they have made out a new list of proscribed. The Taylor horde of office-seekers had been driven away by the King of Terrors, and the Democratic incumbents began to "breathe freer and deeper," as the Secretary of State used to say. But alas! the axe is at work again. A few days ago, about twenty clerks of the Treasury Department were decapitated, and it is reported, from reliable authorities, that before the ensuing session, there will be an indiscriminate massacre of the Democrats. It is gratifying, however, to see that the victims die game. I saw eight of them the other day. They looked a little pale, but there was no whining. They gave up the official ghost, to the tune of "There's a good time a-coming," and will, after a two-year's limbo, resurge into bigger salaries.

I have not recapitulated all the appropriations made for California and Oregon. In the Bill in relation to Light Houses, are contained the following—

"Sec. 8. *And be it further enacted*, Theat there be, and hereby is, appropriated the sum of one hundred and fifty thousand dollars, to purchase a steamer to be employed in the coast survey upon the Pacific coast, and used, if deemed expedient, in designating the sites of the several light houses provided for in California."

IN CALIFORNIA.

"For a light house at Alcatras Island; for a light house at Point Conception, and a fog signal; for a light house on Battery Point, entrance of the bay of San Francisco; for a light house at San Diego; for a light house and fog signal at Monterey; for a light house at the Island of Faralones, off the harbor of San Francisco, and a fog signal, and for the transportation, erection, and placing the same, ninety thousand dollars."

IN OREGON.

"For a light house on Cape Disappointment, at the mouth of the Columbia river; and one on an island off Cape Flattery, at the entrance of the Straits of Fuca, and one at New Dungenness; twelve iron can-buoys in Columbia river, and the transportation, erection, and placing of the same, fifty three thousand one hundred and forty dollars."

I also enclose a list of the various public and private acts passed by Congress. The bill regulating the public lands in Oregon gives every head of a family settled in that Territory before December, 1850, an entire section of land, and to every settler there within the three subsequent years, three hundred and twenty acres. This land is given away. The other details of the bill may be seen by reference to the copy I send you.

There have been several arrests already made with success to the Southern claimants, under the late fugitive slave act. A negro was taken in New York City, and another from Harrisburg, Pa. The New Yorkers have bought back their man, but the Pennsylvanians were not willing to go to such an expense.

An attempt is being made by certain agitators in the New England States to get up an excitement against the law, and some have even called on the blacks to organize an armed force against its execution. But the law will be maintained.

DEMOCRATIC NOMINATIONS.—The Democratic primary elections were held yesterday. Peter Lynch was nominated for Justice, and Charles Bartlett for Constable.

The election takes place on Monday next.

"THE CRISIS."

We fear there is too much apathy on the part of our citizens in regard to the financial condition of the State, and that they do not realize the full importance of the crisis in which the government is placed by the failure of the ordinary sources of revenue, and by the neglect of Congress to recognize our right to the money collected during the military occupation of the country.

In alluding to our paragraph yesterday, as to *What shall be done?* the "Picayune" holds the following language:

The postponement to the next Session of Congress of the Bills that had been brought before them, proposing to afford some relief to California, leaves the State in a sad condition of embarrassment. The people are without any legalized way of obtaining title to a single acre of the public lands, and therefore the progress of substantial settlements in the country, and of the systematic developement of its wealth in such forms as would authorize taxation, must be lamentably retarded. The source of revenue usually found in the right to tax property, must prove for the coming year as limited and unavailable as it has been the last, and it is difficult to conceive how the Legislature will be able to raise the means of sustaining the necessary and unavoidable expenses of the government. We therefore join in the pungent inquiry of a morning cotemporary,—"WHAT IS TO BE DONE?"

As we understand the matter, at the next Session of the Legislature, that body can constitutionally borrow to an amount not exceeding three hundred thousand dollars, but to go beyond that, any proposition must be sent to the people for a distinct and point blank expression of the popular will. If then, there be required for the necessities of the State a greater amount than that which the Constitution allows the Legislature to borrow, together with such amounts as may reasonably be expected to be derived from the ordinary sources, it could not be obtained by loan for a year or more to come, and the government could not go on."

The power of the Legislature to create a debt is restricted by the Constitution to an amount which shall not "singly, or in the aggregate, with *any previous debts or liabilities*, exceed the sum of three hundred thousand dollars," except in case of war, &c., or by a direct vote of the people "at a general election." The fact that on the meeting of the Legislature in January, the debt of the State outstanding will probably be little short of the limit allowed by the Constitution, renders any expectation of resources from a reissue of scrip (the worst form of public debt) entirely futile. Nothing then remains but to create a Loan, which would require a called session of the first Legislature; or, as the Picayune says, "to send the most urgent representations, and the strongest possible influence to Washington, in order to induce at an early day, some special action in our behalf."

"In our opinion, the latter" would be a most humiliating alternative; and it certainly can never be seriously thought of. What a pitiable plight for a State, rich in undeveloped wealth to an extent almost fabulous, and with a commercial position that is the "key to the Indies," to be a humble beggar at the doors of Congress! It cannot be, if a single particle of State pride animates the hearts of our citizens.

But suppose this method were adopted, in what way are the expenses of the State to be met pending a decision of Congress upon our prayer for aid; and *what is to be done* if that body turn to us a deaf ear? It will then be TOO LATE; for with the expiration of the term of the first Legislature, will pass away the constitutional power to create a loan, except by the passage of a law to be approved by the people "at a general election."

All our predictions on this subject have been fully borne out by the development of facts; and we hesitate not to say, that Congress will not, at its coming session, return to California a single dollar from the National Treasury. While we are to be benefitted by the expenditure of several millions in the erection of public buildings, docks, lighthouses, &c. &c. Congress will regard this as all we can ask or should reasonably expect. The appropriations, for the year, from the national Treasury, greatly exceed the estimated revenue; Texas is to be paid ten millions; the charge of extravagance that is raised, and the well known aversion of Congress to the voting of *gifts of money*, will cause the purse strings to be clutched with a grasp too powerful for California to unloose; and we may as well give up all hope of obtaining any aid from that quarter for years to come, if ever.

In view of the circumstances in which the State finds herself, we do not believe the Executive can longer hesitate to call an EXTRA SESSION OF THE LEGISLATURE. That body can be convened by the 15th or 20th of December, and in a single week, by the exercise of its Constitutional powers, place the credit of the State on a foundation that cannot be shaken, and forever obviate the necessity of besieging the Halls of Congress for assistance. Our resources are most ample—we need only time to realize them. We hope, then, that the Governor will immediately issue his Proclamation for an Extraordinary Session.

THE RIGHT SPIRIT.

There is no safety for the democracy except in a strict adherence to regular nominations; and it is a matter of regret to us that so worthy and whole-souled a democrat as Col. W. W. GIFT should deem it advisable to run as an *independent* candidate. We have not heard a word from any quarter against the perfect fairness of the primary election yesterday, and by its decision every democrat should faithfully adhere. It is therefore with peculiar satisfaction that we give place to the following CARD from one of the candidates for the nomination, who, having (as he gave us ocular demonstration,) been "whipped out of his boots," goes in heart and soul for the regular nominee. This is the right spirit, and the democracy will not forget in the future those who thus exhibit their devotion to the party:

CARD.—Col. William G. Wood takes this public method of announcing to his friends that he cannot consent to run as an independent candidate for Justice of the Peace, and solicits their support for Thomas Lynch, the Democratic candidate, as decided by the primary election on the 22d inst.

We are also glad to have it to say that Mr. Judah also avows his intention of supporting the regular democratic ticket, thereby exhibiting a devotion to the party highly creditable to him.

☞ The Whig party in the State of New York seem to have got into the same position occupied by the Democratic party two or three years since, finally resulting in an open rupture, and consequent defeat. Now, however, *they* are united and the Whigs quarrelling. At their recent State Convention at Syracuse, a ticket was nominated, which was repugnant to a portion of the party, and another convention was called. Immediately after the nomination, the editor of the Albany State Register, the new Fillmore organ, telegraphed the following despatch:

To the Whig papers Westward:
ALBANY, Sept. 28, 1850.
KEEP OUT THE SYRACUSE TICKET *for the present.* FULLER.

In commenting upon this, the editor of the *Tribune* remarks:

"The above dispatch from the Editor of the *Albany State Register* went through the State last Saturday on the wings of the lightning. Time has now been afforded for a pretty general response. *Not more than* FIVE of the One Hundred and Twenty-five Whig journals of the State obey the mandate. We only know the *New-York Express, Albany Register, Troy Whig*, and *Utica Gazette* as in full communion with the Bolters. A few others grumble, and talk favorably to the Duer Convention at Utica but they have no heart in it. They only wish the Bolting leaders had shown more common sense.

'No, there is no use in issuing mandates to "*keep out the Syracuse Ticket.*" It won't stay out."

LETTER FROM WASHINGTON.—Our readers will find the letter of our Washington correspondent, commenced upon our first page, very interesting. The writer wields a ready and able pen, and during the ensuing session of Congress our readers will be kept advised of every important matter of national politics, as well as the general chit-chat of the day.

CONSISTENCY.—It was distinctly stated at the time of the first occupation of the Waverly House as a temporary Hospital, that it was to be *rent free.* Alderman Sharron was understood to state that $2000 rent had already accrued against the city. This is what would be called extremely liberal! "Purchase my building at my price, or pay me rent at any price."

THE JENNY LIND.—This beautiful little steamer will leave the wharf foot of Broadway, this afternoon at four o'clock, for Sacramento. "Jenny" is about as popular as her vocalizing namesake.

WHARFAGE.—Why charges are made and moneys daily collected for the use of the wharves belonging to the city, does not very clearly appear. What's the price of *city scirp*?

"THE SCHOOLMASTER ABROAD."

We have shown up the *decency* of the *Courier* some time since, and we believe it is a matter pretty well understood. If not so, any one may be convinced of it *ad nauseam* by turning over its files from the date of its commencement, as it has been our unwelcome task to do to exhibit its familiarity with *Latin*, etc. There very few of our contemporaries, high or low, but what have at various times been made the subject of a paragraph in its peculiar style.

But, by the way, its *Latin*, etc., are now on the *tapis*. We give below a few of the many errors committed by them, either—as we charged the other day—from *careless proof-reading;* or, as it may be, from something worse, which we did not charge, although our *decent* cotemporary lays the same flatly upon us, together with sundry other appellatives very *decently* applied.

We did not seek this pedantic controversy with the *Courier*, and shall not recur to it again. We have no manuscript notes of travel in Europe, and do not know how they *dejeuner a la fourchette;* but we do know that in almost every case of the use of a word or phrase from a foreign language in the columns of the *Courier*, a mistake of some kind is to be found. And, as we were free to confess, in our use of "*latinities*" (!) we have not done much better.

The public shall judge of the following examples, taken, with the dates, from the Courier:

July 1. Eureka, a Greek word, signifying 'I have found *it*'—what?
July 3. Reunion de los Californiensis—what *does* this mean?
July 4. Bonnet Carre Cervasse.
12. Esculapias.
15. Habeus corpus. Esta perpetua.
17. Qu' il disespoir.
18. In otium cum dignitate.
19. Puerto segure.
24 Boquet of beauty.
Aug. 12. Jam satis, et majus *que* satis.
14. Postra plus.
17. *Constdu net Dietsch* sprachen.
19. *Aliunde* in curia.
Sept. 6. Whiggery moituus est.
21. Los Angelos.
Oct. 7. Tertiam quid.
21. Alveso. 25. Alveso.
28. Vaccaro.
29. Comme *et* faut. Fouda de la *. Dr. Labatord.
Nov. 1. Johannes Bvrgerhvys *nie* fecit.
6. Los Angelos. Augua Fria.
11. Fiat Justitia ruat *clum*—[Respecting which our sapient cotemporary had the following, on the 20th: 'Clum! as the *Pacific News* cœlumized its Latin a day or two since.' This is really too bad.]
11. Stat nominus umbra.
16. Adios amigo's. *E'* un ignorante, etc.

We have done; and, considering as we do, that glory enough has been gained for one campaign, we propose to devote the spoils to illuminate a 'Dictionary of Quotations,' or a 'Handbuch fur die Angefanger.'

THEATRICAL.—The Dramatic Museum is *the* place to spend an evening pleasantly, for those who fancy the Drama. The house is filled nightly. See the bill for this evening.

At the Adelphi, new attractions are presented, and under the admirable management of Mrs. Collyer succeeds well. The receipts for this evening are set apart for the benefit of the three sisters who appear upon the stage, and whose father died of cholera in this city a few days since, leaving a family of seven children. The father served faithfully and creditably in the army in Mexico, being one of the guides that led our forces to the cit. of Mexico. We trust a generous benefit will be given his poor but worthy orphans.

CORONER'S INQUEST.—The Coroner held an inquest yesterday on the body of John Brown, who was found wounded in the head, and nearly dead, at the other end of the bridge that leads across Sutter's lake. Deceased had been in a state of intoxication, and by the verdict of the Jury, came to his death by "a wound behind the right ear, and severe bruises on the right side, on the back, and other parts of the body." There seems to be a mystery about the case, leading one to suspect that foul play has been used. [Trans.

COMMON COUNCIL.

Friday, Nov. 22.

BOARD OF ASSISTANTS.—Present, Ald. Bartol, (chairman) Sharron, Corbitt, Morris, Van Ness and Green.

Minutes read and approved after an amendment permitting Pres. Bartol to record his vote on the ordinances respecting Merchant street and the Clerk of City Attorney.

PETITIONS—From Policemen for payments of service in cash after November 1st, inst., and that the discount on scrip already received be reimbursed them. Of citizens, praying for improvements in Pacific st., near Kearny. Of Philip Winkle, for relief for making the sewers in Battery street. Of property holders protesting against the grading and planking of Sansome street, above Jackson.

The above petitions were all referred to the appropriate committees.

REPORTS—The Committee of both Boards, recommending the adoption of the bill respecting City Hospital, with the amendments; adopted, and the ordinance was concurred in.

A communication from the Mayor, submitting a plan, by our eminent architect, for a city hospital. Approving issue of scrip for Hook and Ladder Co. Of J. L. Folsom against planking California street. Of J. W. Casserly for aid to enable him to return to New York. Of Committee adverse to the purchase of the building owned by E. W. Kimball, and recommending the purchase of the Waverly House at $20,000, to be used as a city hospital; adopted, and the bill passed to a third reading. Of Board of Health against binding animals, and keeping them a long time without food, beyond twelve hours. The bill was passed to be engrossed.

A communication from the Board of Health recommending an ordinance requiring the building of privies in connection with all new buildings in future to be ereeted in the city. Referred to Com. on Police. Of sundry persons, recommending the appointment of Capt. J. Adams as Steward of City Hospital.

Of Board of Health, recommending pay for resident assistants in the Cholera Hospital.

The bill of Michael Hayes ($25,) for conveying a patient from the Mission Dolores, was referred to the Finance Committee.

The bill authorizing the issue of $200,000 city scrip, was then taken up, after a little discussion was laid upon the table to await the report of the Comptroller.

Ald. Bartol offered a resolution calling upon the Comptroller for a quarterly report, and also for an immediate report; adopted. Adjourned.

THE AMERICAN HOUSE AT BENICIA. Our neighbors at Benicia are not likely to suffer for want of hotels. We counted some six or eight. The *Solano House*, kept by Capt. Winn, has been very highly recommended; but at the time of our visit it was too crowded, and we found excellent accommodations and good company at the AMERICAN HOUSE, kept by Mr. C. M. Davis. We found among others of his guests, his honor, Mayor Kearny—a cousin of the late Gen. Kearny—whose views regarding the true interests of this country seemed to us singularly clear and just. And last, though not the least attraction at the American, is the pretty lady who presides over its domestic arrangements.

BLOWING OPEN A SAFE.—Some of our industrious midnight marauders forced open the door of a safe with powder, in a store in Sacramento street, on Thursday night. The noise of the explosion was so great as to arouse persons in the neighborhood, and the rascals decamped. There were $1800 in the safe, but in their hurry to vamose, the thieves did not get a dollar. California houses are not favorable to deadening noisy explosions.

☞ Deaths reported for the Pacific News, by N. Gray, City Sexton, Sacramento street, Nov. 22.

Child of Mr. Wilson, 1 mo.

Mary Ingram, child, 19 mo, convulsions.

Charles Byrnes, Penn., 19 years, congestion of the brain.

Ebenezer Burrill, Mass., 43 years, dysentery.

Lorenzo Currier, Mass., 40 years, dysentery.

☞ Our Senators and Representatives in Congress put us under obligations for Congressional documents. Also, Hon. A. M. Schermerhorn, of the Monroe District, N. Y.

NO MORE FLOGGING IN THE NAVY.—The following is the clause in the Naval appropriation bill which abolishes the villainous 'Cat' from the naval and merchant service of the United States;

Provided, That flogging in the navy and on board vessels of commerce be and the same is hereby abolished from and after the passage of this act.

A hydropathic establishment is about to be opened, by an English surgeon, at Alexandria, Egypt, on the Graeffenburg system. It is expected to derive the main support from invalids arriving from India.

THE JUDICIARY OF CALIFORNIA.—The U. S. judges to be appointed for California will be required to pass upon questions of the utmost importance to the public, affecting the interests of Northern merchants to the amount of many millions of dollars, and requiring for their solution an intimate practical acquaintance with the mercantile and maritime law. The land titles of California are likewise in a state of great confusion, and have already led to angry litigation and other unpleasant results. To the people of California, as well as of the North, it is of the greatest importance that able, upright, and experienced men should be selected; and the commercial cities of the North have a strong claim for having one at least of the judges taken from the professional men in the great cities. [N. Y. Jour. of Com.

NUMBER BURIED.—The *Transcript* gives the following, from actual count, as the number of graves in the burying grounds at Sacramento. Nearly all of those made since the last rainy season, were dug during the recent visit of the scourge to that city;

"Total number of graves in the large burying ground 966. Of these 140 were evidently graves which had been made before the last rainy season; 826 had been dug since. In the smaller burying ground near, there where 100 graves in all, 31 of which were new."

The new Female Medical College went into operation in Philadelphia on the 7th inst. Forty ladies have matriculated. A *Lying* Department is attached to the College under the Superintendance of Doctress Gleason.—[Picayune Corres.

☞ That's bad, decidedly. A "*lying* department" should be established in any other place than a female College.

MOURNING DRESSES.—On the subject of expensive dresses for families in mourning, a correspondent of the N. Y. Jour. of Commerce, states that when General Washington's mother died, the only mourning he assumed was crape on his arm and black shoe buckles. This was in Philadelphia, and perhaps in conformity to the resolution of the Continental Congress.

RIOT AND BLOODSHED IN PHILADELPHIA.—A despatch from Piladelphia, dated on the 6th, says:

"There was a riot last night between the blacks and whites at the corner of Seventh and Lombard streets, during which a white man named Lipple was stabbed and horribly mutilated, and while being carried to the station house he died. The watchmen who accompanied him were fired upon by the blacks."

The Emperor of Austria is said to have personally invested the King of Greece with the order of the golden fleece during their recent meeting at Isehl.

A funeral service was celebrated at Aix-la-Chapelle on the 12th ult., for the repose of the soul of the King Louis Philippe. The service had been ordered by a Polish family out of gratitude to the deceased monarch. Amongst the persons present was the Duke of Albufera.

HORRID MURDER IN CHESTER COUNTY.

We are informed by letter from West Chester, of a murder in Chester county. The victim was Phœbe Sharpless, daughter of Aaron Sharpless, near Hamerton, in that county. She had been the teacher of a school, near Rocky Hill, three miles east of West Chester. On Saturday morning, about 8 o'clock, as the scholars began to assemble at the school, they discovered her laying lifeless at the door, she having been shot in the back of the neck, so as to cause instant death.

The wadding of a gun was lying near by, and the person who perpetrated the deed must have been secreted behind a walnut tree which stood at the distance of 35 or 40 feet in front of the door.

The unfortunate young lady was about twenty years of age, and of the highest respectability. Her unhappy fate has excited the deepest feeling of regret, and aroused the whole population in the vicinity of West Chester.

Yesterday morning a young man named George Pharaoh, was arrested, who is supposed to be the murderer. Circumstances tend strongly to fix the crime upon him. He had frequently been seen about the place, and the gun wadding picked up was of paper corresponding with a number of the Saturday Evening Post found upon his person.

The prisoner denies knowing anything of the matter. He acknowledges that he was out gunning on the morning of the murder, but asserts that he was not nearer the school house than a quarter of a mile. [Philadelphia North American, 31st Sept.

LONGFELLOW IN ENGLAND.—We are glad to perceive that this greatest of American poets is properly appreciated by critics in England, as will be seen by the following remarks from the London Evening Sun of the 24th September:

"*Music—The Voice of the Night*—Recitative and Air. The Poetry by Professer Longfellow; the Music composed and dedicated, by permission, to the Viscountess Dungannon, by Earnest Reinhold.

"It is not often that poetry and melody are found so intimately combined as they are in the present delightful composition. Ernest Reinhold, of whom, from his former composition, we expected great things, and who does not seem likely to disappoint our expectations, has become thoroughly imbued with the spirit of Professor Longfellow's exquisite poem, which he has rendered into music worthy of the subject. This is, without exaggeration, 'music married to immortal verse,' and as such is destined to an enduring fame. 'The Voice of Night' will not be cast aside with the great mass of nonsense verses set to so-so music which encumber the music stand of the drawing room, but will be carefully treasured as one of those choice compositions which will be recurred to again and again with delight."

PROGRESS OF THE TELEGRAPH.—We find in the papers continued accounts of the progress of the telegraph system in Austria. Within the last four months, through the activity of the Minister of Trade, no less than 1000 miles of telegraph have been opened, making the total mileage about 2000 miles, of which about one quarter has the wires laid under ground on the improved system. Another 1000 miles will be ready by next year. The telegraph now works from Cracrow to Trieste, 700 miles. On the 1st October, the new telegraph union between Austria, Prussia, Saxony and Bavaria, comes into operation, under a uniform tariff, which is one half of the former charges.

EMIGRATION STARTING TO CALIFORNIA.—A letter from Fort Laramie dated 26th August says that the tide of emigration has almost ceased. The Mormon emigration this year is estimated at 5,000. The Register this season exhibits the number of emigrants as 39,500 men; 2,500 women; 600 children; 23,000 horses; 8,000 mules; 36,000 oxen; 7,000 cows; 9,000 wagons. Deaths en route 316. It is estimated that one fifth did not register their names. The emigrants suffered much for food and by loss of animals; 1,000 would not cover the deaths between Missouri and Sacramento Valley. Small Pox is prevailing among the Sioux.

DR. WISEMAN, the distinguished author of the Connection of the Sciences and Revealed Religion, and a recent convert to the Catholic faith, arrived at Rome on the 4th September. By an order of the Holy Office of Ancona, dated the 25th of August, all Christians under 25 years of age, if male, and under 35, if female, who were actually in the service of Jewish families, are to leave their places by the end of the month.

PROCLAMATION!!!

The Governor of the State of California, to all to whom these presents may come; Greeting:

In compliance with the long established and appropriate custom of our fathers, as well as in accordance with his own feelings, the undersigned, Governor of the State of California, hereby recommends that Saturday, the thirtieth day of November, one thousand eight hundred and fifty, be set apart and observed by the people of California, as a day of solemn thanksgiving to the Supreme Ruler of the Universe, for the unnumbered blessings bestowed by Him upon our young State and people; and especially for our admission into the happy family of States.

Given under my hand, at the Pueblo de San Jose, the fourth day of November, in the year of our Lord, one thousand eight hundred and fifty, and of the Independence of the United States, the seventy-fifth.

LOOK AT THIS, EMIGRANTS AND OTHERS!

300 FAMILIES WANTED, WHO wish Homes. Having completed my survey in the southern part of the city of San Jose, in all 900 lots, 25 by 47 1-2 varas, and being desirous to have improvements go on rapidly, I propose to give 300 lots to settlers who will build a neat, suitable house on each lot, and fence the same.

I have also over 100 lots, 50 varas square, in the Old Survey of the city, which I will sell low, and give time on part. The lots I own in the Old and New surveys of the city are decidedly the best locations for buildings, being high and dry, and never subject to overflow; with the very best mountain water, obtained at the depth of 12 to 14 feet.

I think lumber shippers would do well to call and take a look at my lots. I will give them lots to build houses on, or will exchange lots for lumber of all kinds, or houses.

THE VALLEY.—We have a greater number of acres equal to the best Illinois land, than can be seen in any other north or east of us, in California; and the grain-growing portions of the world, so far as I am acquainted, cannot equal us in producing wheat, both in quality and quantity: 60 bushels have been raised to the acre, and there can be seen now in the fields and gardens of our farmers, as fine crops as a majority of the States can produce at and vegetables of all kinds in abundance growing, and that too, without rain or watering.

CLIMATE AND HEALTH—Listen, now:—The average summer heat is 75 to 80 degs., with cool nights; no musquitoes, day or night; no fever and ague, and no disease peculiar to the valley or town, winter or summer.—We have some of the first settlers living with us yet, over 100 years of age, and one in particular, over 110, sound in body and mind. We have had but one death out of the immigration of 1846, an old gentleman, who was broken down with disease before he came to our city.

THE MORALS of our city and vicinity will, I make no doubt, compare with those of the best of our neighboring cities and towns. We are a law abiding and a law supporting people, and have our churches and schools as well as others.

Persons wishing lots will apply soon to the subscriber in the south end of the city. JAMES F. REED.

KLAMATH GOLD MINES, River and Town.—One of the most extensive fields for speculation at present in California.

The attention of the public is now called to this very important part of California. The town of Klamath is situated on the bank and at the vicinity of the mouth of a river, upon the numerous tributaries of which the most productive and extensive gold mines have been discovered of any now in existence in California. The Harbor (at the upper end of which this beautiful town site is situated) is both commodious and secure, and possesses the very superior advantage over all the other ports upon the coast between the Columbia river and San Francisco of a perfectly safe entrance. The river is a magnificent stream and navigable by steamers, according to the opinion of steamboat captains and others in every way competent to judge of the matter, at least 70 miles up; at, and even below which point, these very rich gold mines commence. Merchants and capitalists who are desirous of realizing a handsome profit upon their goods and an enormous return for their capital cannot enter into a better speculation or make a more safe investment of their means in any part of California, from the fact that there are at present about 2000 miners at work upon this river and its tributaries; and there is every reason to believe, from the numerous satisfactory statements of the miners, relative to their success during the last year, that next year there will be many times the number. The immediate rush to these mines from all parts will be immense, and in fact almost unprecedented; and this town, which may be said to be adjacent, in consequence of the water communication into the very heart of them, must and will undoubtedly be insured a speedy and almost magic growth, and by this time next year will be a very respectable rival to (if not totally eclipsing,) Sacramento and Stockton. Miners who have, during the last summer expended to such a deplorable extent their useless toil and labor in the southern mines, and have actually lost money in the place of making it, by the unsuccessful and numerous damming operations, and the scarcity of gold there, are strongly recommended to turn their attention to these mines, as the average amount dug last year, putting it at an infinitely lower estimate than from the statements of the miners we would be warranted in putting it, one ounce per day to the man. This alone is sufficient to justify the opinion that there is ample room for more, and when it is taken into consideration that not over one tenth part of the gold region has as yet been explored, the certainty of room is rendered beyond doubt. The enormous tax upon the miners for packing of provisions will next year be effectually obviated by the aid of water communication, which extends into the very heart of the mines. Goods can be taken from the deck of steamers by the miners in the place of the pack-saddle of the mule, and provisions now furnished at an expense of $1 50 for the mere packing, can be afforded for ten cents, thus enabling the miner to lay by the fruits of their labor, instead of expending so great a quota for subsistence. To persons wishing to invest capital to an advantage in town lots, an almost unparalleled money making speculation is now open; as lots at the present time can be procured at a comparatively low figure, and the price that they will be disposed of next spring will be high. Arrangements have been made for a steamer to ply between the town and the mines, which will warrant to miners the supply of provisions forthwith.

A map of the town and river can be seen at Messrs. Shultz & Palmer's, foot of Jackson street; at Bullett & Patrick's, corner of Jackson and Sansome streets; and at Worthington, Beale & Bunting's.

Any required information respecting the Mines, River, Town and Harbor, by application to Mr. John Gray, at Messrs. Schultz & Palmer, or to Mr. T. Bunting, at the firm of Worthington, Beale & Bunting, on Montgomery street. o15

THE PEOPLE OF THE STATE of California, District of the County of Santa Clara: Jose De Arnaz vs. Genoveva Garcia Mangel, Emanuel Mangel and Lorenzo Geoffrey. Petition to foreclose mortgage, &c.

Whereas, JOSE DE ARNAZ filed in this Court on the 16th day of May, 1850, his petition, showing, among other things, that on the 20th day of December, 1849, Genoveva Garcia Mangel, the wife of Emanuel Mangel, was the owner in fee of a certain house and lot in San Jose, adjoining and in the rear of the house lately occupied by Messrs. Larrain, Benitez & Co., and fronting on Garcia street, did on that day mortgage the same, with the consent of Emanuel Mangel, her husband, to said Arnaz, to secure the sum of five hundred and sixty dollars, payable four months from date: That afterwards, on or about the 15th day of January, 1850, said Emanuel Mangel and Genoveva G. Mangel executed a mortgage on the same premises to one Geoffrey, of San Francisco, for about fourteen hundred dollars; which said mortgage was falsely dated the 19th of December, 1849, with intent to defeat the prior mortgage lien on said real estate, and to cheat and defraud said petitioner out of his debt. Said petitioner prays discovery and full answer to the above facts, that said mortgage to Geoffrey be set aside as fraudulent, and that said premises be sold to pay petitioners's mortgage, and for general relief.

And it being proved by affidavit to the satisfaction of this Court that Emanuel Mangel is a non-resident of this State, notice is hereby given to Emanuel Mangel to be and appear before the Honorable Court of the Third Judicial District, for the County of Santa Clara, on the fourth Monday of December, 1850, at the court house in San Jose, then and there to answer said petition, or, in default thereof, the allegation therein contained will be heard in your absence and decreed accordingly.

Given under my hand and private seal, there being no seal of office yet provided at this office, this 24th of May, A. D. 1850.
